INCIDENT TO HUMAN NATURE.

ADDRESSED TO THEM

*BY DR. JAMES CHURCH,* ✓

No. 137, FRONT-STREET, near the Fly-Market,

NEW-YORK.

---

PRINTED FOR THE AUTHOR, BY G. AND R. WAITE,

1800.

# CAUTION.—IMPOSTORS.

VERITAS VINCET OMNIA.

---

*IN the present age, when imposture stalks so openly and shamefully abroad, no man, who has laboured for the service of the community and who has had the satisfaction of seeing his labours crowned with some degree of success, is free from the direct or indirect attacks of persons whose business it is to deceive. And medicine particularly affords a very extensive, though a very dangerous, field for imposition, which is generally practised in proportion to the celebrity the Medicine has acquired.*

*It cannot fail to attract the notice of the public, that Dr. CHURCH's COUGH DROPS, and other medicines, unparalleled for their efficacy in the cure of various disorders, and established solely by their merits, has opened a door for imposition. A base and notorious imitation of his genuine medicines, has been vended in almost every city of the United States, as of Dr. Church's preparing, with his forged Signature, but which, from their inefficacy, have been detected. They would be too contemptible to be noticed, were it not by way of caution, as it is too probable danger of the most serious nature may arise from the application of such gross and scandalous deceptions.*

*Dr. Church therefore thinks it his indispensable duty to lay before the public the above facts, requesting them, as they value their money, their health or their lives, to be particularly cautious how they purchase or take any of those despicable and dangerous impositions which are absolutely intruded upon them under the unwarrantable name of Church's Cough Drops, Essence of Mustard, &c. &c. such compositions bearing no analogy to his. Each bottle of Cough Drops has a blue certificate, signed James Church, pasted on the outside wrapper, without which blue label, it cannot be genuine or of Dr. Church's preparing.*

---

# APOLOGY.

---

FOR many years past, I have applied myself particularly to the study of the cure of Diseases of the Lungs, and the astonishing success I have had since my commencement into practice, is such as I flatter myself, few in the medical line can boast. In the years 1792 and 1793, by means of public advertisements, I made known a cure for COUGHS, ASTHMAS and CONSUMPTIONS, through the efficacy of a Medicine of my own invention: this drew a very considerable number of patients to me, many of whom I had the happiness to cure of the most afflicting maladies incident to human nature, (as will appear by the pamphlets published by me) wherein is exhibited such astonishing proofs of its incomparable virtues, as are totally unexampled, and occasioning a demand of the Medicines hitherto uparalleled.

The propagation of these important truths, led me into a vast field for practice, particularly during the uncommonly severe winter of 1794—it was no unusual thing for me to see from 70 to 80 patients a day, nor were my labours crowned with a small degree of success; those who have been my patients, and have been restored to health from lingering diseases, need not be informed this; but for the information and satisfaction of those who have not had the opportunity of witnessing the success I have had, I refer to the pamphlet above alluded to. It has been said, if I REALLY had the public good at heart, as I have professed to have, I should make known the secret by publishing it for the general good; but here I will give some of my objections: was I to do that, they would be prepared by every apothecary and chemist, their virtues would gradually degenerate, and consequently many would be deprived of their efficacy which as long as they are kept a secret they may expect—experience daily convinces us that mankind in general despise those things which are commonly known, and too easily obtained.

Many of the most excellent medicines that have been discovered by men eminent in the practice of Physic, have performed very astonishing cures during the lives of the inventors, yet after their decease, when they have no longer remained secrets, but have been published (from motives of philanthropy) for the benefit of mankind in general, have gradually sunk into disrepute and ultimately into oblivion, and for no other reason, but because their preparation was generally known—of these truths I could produce a number of Instances,

A professed Medical author\* who has vainly attempted to effect what he calls a "reform in the healing art," in a late publication, says, "if a man should make any discovery in medicine, likely to be useful to his country, let him make it known to the College of Physicians, or Corporation of Surgeons, and on their deliberate trial and report in its favour, let him be rewarded by the Legislature." It is very probable they would make a "*deliberate trial*" of its efficacy to their own profit and emolument; but he must not expect a "*report in its favour*," although adopted into general use by many of those gentlemen who constitute the "*College of Physicians*" and "*Corporation of Surgeons*." Who then is to indemnify me for having given away what would at least have procured me a comfortable competency? I doubt if this gentleman, or any other person, can produce a single instance, where any professional man was ever rewarded by the Legislature, for any discovery made in medicines however important.

For while every other science is rising hastily towards the summit of perfection, while monarchs deign to patronize its improvers, and the whole nation derives fresh dignity and importance from the discoveries of individuals, the science of physic *alone* is neglected. Is the cultivation of our lands, the extent of our navigation, or the momentary entertainment of our eye or ear, of more consequence than the enjoyment of our health, or the preservation of our constitutions from sickness or disease? in vain do we attempt to render the earth more fertile, in vain do we labour to extend our commerce, the charms of poetry are wholly useless, and even music's self has little power to please, even with all these blessings, we still are languishing upon a bed of sickness; even all that gold can put us in possession of, would be tasteless and insipid, had we not health to enjoy what we possess. Yet we cannot in all our searches, find a single patron for the encouragement of this sublime study.

Our seminaries of learning, appropriate honorable rewards for literary exhibitions; societies instituted for the promotion of the useful arts, have rewarded men for producing a quantity of grass or vegetables: but to whom shall *he* apply, who has found out a cure for a dangerous and torturing disease; there is no society to reward *him*, or recompence *him* for his labors; no man of eminence to grant *him* his protection; but on the contrary he is *opposed* by the whole fraternity of physicians and surgeons; and every avenue to fame and honour, through *their* means, is effectually stopped up.

In the present case there are few exceptions, some few medical gentlemen have been candid enough to make a *deliberate trial*

\* T. Champney.

of my medicines, and have made a *report in its favour*, as may be seen by their public testimonies in this pamphlet. I am therefore under the necessity, whether pleasing to me or not, of adopting this as the only method to propagate, and render universally known, the result of long and indefatigable study and practice.

Surely then as the Proprietor, I may without ostentation, congratulate myself and the public, on account of it, and rejoice with the numerous families and individuals, who have thereby been made happy in the unexpected and frequently unhopd for recovery of themselves, their relatives and friends.

The Reader must not expect (from what I have said) that the Medicine will work miracles, or that they are infalliable, for to assert either, would be a gross violation of truth, as no such Medicines ever were discovered.

My fervent desire is, that all who labour under the several Disorders herein mentioned, may be led to adopt the method laid down in the several directions, and experience the good effects of the Medicine, in a speedy return of health.

JAMES CHURCH.

*Dr. CHURCH's*

**Essence and Extract of Mustard.**

Prepared (only) by Dr. James Church, at his Dispensary,  
New-York.

**T**HERE is perhaps no malady to which the human frame is subject, that has had more applications of various kinds administered as remedies, than the Rheumatism, nor is there scarce a disorder that has resisted with like force the attempts made to remove it. The virtues of the Essence and Extract of Mustard, will be found to equal, if not excel those of any other medicine whatever, in the cure of the above complaints. The following is quoted from the London Pharmacopæia, and is the opinion of the College of Physicians concerning this valuable drug.

“MUSTARD by its acrimony and pungency, stimulates the solids, and attenuates viscid juices, and hence is deservedly recom-

mended for exciting appetite, promoting digestion, encreasing the fluid secretions, also in paralytic and rheumatic affections."

These Medicines contain all the virtues that can possibly be derived from that excellent and powerful vegetable. The Essence is prepared in a fluid state, and is singularly efficacious as an external application: common Rheumatisms, Sprains, Chilblains, stiff Necks, swelled Joints, Bruises, frozen Feet, local Pains in any part of the body or extremities, swelled Faces, chapped Hands, &c. will be found to yield to its benign influence in a few hours. The Extract is prepared in the form of Pills, and (being an internal remedy) is an amazing additional improvement, taken in the severest cases of Rheumatic Gout, Chronic Rheumatism, Palsy, fixed Pains, Lumbago, Numbness, Gout, &c. when the Essence is externally applied. It promotes gentle perspiration, and operates very mildly by urine. They also amend a weak digestion, and strengthen the stomach.

§ Observe—This Chemical Essence and Extract of Mustard, bears no analogy whatever to any other Medicine of a similar title; nor can it possibly be genuine without this certificate: "*I hereby certify, that this bottle*" (or box) "*of Essence,*" (or Extract) "*of Mustard, is genuine, and prepared by me,*"

James Church,  
Inventor and sole proprietor."

### AFFIDAVIT.

NEW-YORK, SS.

**JEREMIAH GOODELL**, resident at No. 10, Water-street, New-York, voluntarily maketh oath, that he was severely afflicted with the Rheumatism for upwards of 18 months, a great part of which time to so violent a degree as to render him unable to help himself, or to get out of his bed---that he suffered the most excruciating pain---that he made application to some of the first Physicians in New-York, and elsewhere, that were for some time in the Hospital in New-York; that none of the remedies recommended and administered to him afforded him any relief; that his complaints encreased upon him to an alarming degree; that he at length was advised to make trial of Dr. Church's Chemical Essence and Extract of Mustard, which he did, and which gave him instantaneous relief; and by repeating its use, it effectually cured him, and restored him to perfect health and strength, without the aid of any other application or advice whatever; and that he has had no return of his disorder since.

**JEREMIAH GOODELL,**

Sworn before me this 16th day of January, 1800.

JACOB DE LA MONTAGNIE, Alderman.

We the undersigned, have been eye witnesses of the extraordinary cure of the Rheumatism wrought upon Jeremiah Goodell, by Dr. Church's Chemical Essence and Extract of Mustard.

JOHN CARBERY, No. 8, Moore-street.

WILLIAM BROWN,

WILLIAM MYLER,

### AFFIDAVIT.

NEW-YORK, ss.

KILNOR GRANT, now resident at No. 93, St. James'-street, in the city of New-York, voluntarily cometh before me and maketh oath, that he was for some time afflicted with the Rheumatism to a violent degree; that he was unable to walk or help himself, being deprived of the use of his left arm, and his head so dreadfully afflicted that he was deprived of his rest, and of attending to his business in any measure, that he has had the medical aid of some of the first physicians in New-York, whose medicines afforded him very little relief; that finding he got no better of his disorder, and being advised, made use of Dr. Church's Chemical Essence and Extract of Mustard, which immediately relieved him, and by continuing the use of said Essence and Extract of Mustard, he is restored to the use of his arm, and otherwise perfectly restored to health; that he this deponent out of gratitude ALONE to said Dr. James Church, for the benefit he has received from said medicines of his invention, thus publicly comes forward to testify of its Virtues---and further this deponent saith not.

KILNOR GRANT.

Sworn before me this 11th day of Feb. 1800,

JACOB DE LA MONTAGNIE, Alderman.

We the undersigned hereby certify, that we have been eye-witnesses to the distressed situation of Mr. Kilnor Grant's health, and have also witnessed the cure wrought on him by Dr. Church's Chemical Essence and Extract of Mustard.

JOSHUA PETTIT,

WHEELER BARNUM,

BENJAMIN WATSON,

ENOCH LOCKWOOD,

} St. James'-street.

Copy of a letter to Dr. Church.

Sir,

New-York, Feb. 10, 1800.

Having experienced the efficacy of your *Essence of Mustard* in a very singular manner, in restoring to me the use of my right arm, after having been deprived of it from a Rheumatic complaint which suddenly attacked me, so that I was unable to use it in any way, but was compelled to wear it in a sling, a friend who had part of a bottle and who spoke highly of its efficacy, (having proved it) recommended to me the use of it also. I applied it 3 or 4 times, and assure you, it entirely cured me, so that I was able to resume my business immediately, without any return of pain or inconvenience.

I am, Sir, your humble servant,

KOERTENES SCHENCK.

"FACTS ARE STUBBORN THINGS."

To Dr. CHURCH, New-York.

Sir,

I have been much afflicted with the RHEUMATISM ever since the fall of the year 1784, (owing to my imprudently exposing myself to the dews of the evening) to such a violent degree, as (at times) not to be able to raise my hand to my head, or to dress and undress myself, particularly at the change of weather, for which I have used and taken a great deal of medicine to no purpose: till early in July last, having caught a violent cold through over-heating myself, I was not able to move in bed. In this situation I lay for two days and two nights, when I was advised by a neighbour to use your CHURCH'S ESSENCE OF MUSTARD and PILLS, which after the first application I was able to move without pain, and by using four bottles and three boxes of pills, I was entirely cured, and am now perfectly free from my disorder, and am as well and as hearty as ever I was in my life. You have my hearty thanks and good wishes for your prosperity, and am, Sir,

Your humble Servant,

JONATHAN HOOFFMAN.

George-Town, Aug. 2, 1799.

New-York, June 4, 1799.

Sir,

During my residence on Long-Island last winter, I took a most violent Cold, which brought on a Cough, and almost an entire loss of the use of my limbs—I took your COUGH DROPS,

which soon removed my Cough, and in some measure relieved me otherwise, but could not walk at all; recollecting you advertised an ESSENCE OF MUSTARD, I sent to New-York and procured some, which (with the use of the Mustard in Pills) cured me entirely in three days, so that I was able with perfect ease to go a voyage to Bermuda, in a week after, to the great surprise of every body who lived in the neighbourhood and knew my case.

I remain, Sir, with much respect,

Your obedient Servant,

TO DR. CHURCH.

JOHN R. MAXWELL.

It is sold in bottles and boxes, at 75 cents each.

---

FOR THE CURE OF  
COUGHS,

Colds, Asthmas and Consumptions.

*Dr. CHURCH's COUGH DROPS.*

---

PERHAPS no remedy in the whole history of medicine ever acquired greater celebrity than CHURCH'S COUGH DROPS, which is proved to be a perfect cure for COUGHS, COLDS, ASTHMAS, CONSUMPTIONS and the HOOPING COUGH; and no wonder, since upwards of four hundred thousand persons have already experienced its happy and salutary effects, many of whom have been impelled by motives of gratitude, and for a laudable regard for their fellow men suffering under the similar complaints, to publish the respective cases to the world; therein exhibiting such astonishing proofs of its incomparable virtues, as are totally unexampled, and occasioning a demand for the medicine hitherto unparalleled.

Very many of the patients who have been restored to health by these drops had been reduced by long standing and increasing Consumptive and Asthmatic complaints to the brink of the grave, after having used every remedy recommended as specific for those complaints, and receiving every advice and assistance from the Faculty they could obtain.

The principal qualities of this medicine are an *Expectorant*, a *Demulcent*, an *Antispasmodic*, a *Corroborant*, an *Anodyne* and a *Tonic*: also an enlivener of the spirits, and a restorer of the appetite, by a removal of the affection which suspends it. It gives almost immediate liberty of respiration in the highest paroxysm of the asthma, without a danger of subjecting the patient to take cold; it directly eases the lacerating soreness of the breast occasioned by coughing: in obstructions of the glands, and in

removing that acrimony of the fluids, (particularly in that species of cold termed a *Catarrh*) which corrodes the lungs, and if not timely prevented, is productive of the most fatal consequences.

Even in the most desperate cases, which experience has proved a cure to be impracticable, and where the whole internal system has been actually decayed, these drops surprisingly comfort and relieve the patient, not only by giving ease to the cough and breath, but by promoting sleep, stimulating the appetite, enlivening the spirits and consequently prolonging life, of which all men are so naturally desirous.

COMMON COLDS, which are generally occasioned by an obstructed perspiration, will be found to yield to its benign influence in a few hours. In common Coughs, which are in general the effect of COLD, it gives immediate relief, removing those troublesome irritations, or as they are called, ticklings in the throat, so tormenting in this complaint, and which acts as a constant stimulus to coughing; it quiets those convulsive excitements, and causing the afflicted to breathe and speak freely; it procures rest and sleep in an eminent degree, and strengthens the constitution, which enables it to repel an enemy, whose attacks are frequently followed by the most fatal consequences.

Persons afflicted with PULMONARY COMPLAINTS, or disorders of the BREAST and LUNGS, (even in the most advanced state, and the most advanced period of life) will find instant relief.

In ASTHMATIC or CONSUMPTIVE Affections (recent or chronic) HOARSENESS, CATARRHS, WHEEZINGS and SHORTNESS OF BREATH, it will give immediate ease.

It is also admirable in SORENESS of the BREAST and STOMACH, giving present ease in these cases.

In the HOOPING COUGH it remains without a rival; a few instances only are selected from a numerous list to prove its efficacy.

It has been the instrument in the hands of Providence, of curing many thousand of poor afflicted objects, both Asthmatic and Consumptive, not excluding some of thirty years standing, (see the case of Mr. Williams) and in most of the confirmed cases, where a cure could possibly be effected by medicines, it has wonderfully alleviated the complaints, so as to enable the patient to attend to business, and to render their lives in a great degree comfortable to themselves.

It operates by gentle expectoration, and may be given to women with child, and to infants with the greatest safety.

## AFFIDAVIT.

City of New-York, ss.

William M'Cloughan, cooper, resident of Gilb's alley, in the city of New-York, voluntarily maketh oath, that he was severely afflicted with a consumption for upwards of eighteen years; that he laboured under the most inexpressible affliction with a violent cough and shortness of breath, that he could not lie down in his bed for weeks together, but was obliged to be propped up by pillows, or in an armed chair, and in the day time unable to attend his business; that at length he was so reduced and wasted away, as to be scarce able to walk at all: that he had tried the skill of many respectable medical men, and has expended a very considerable sum of money, and has taken a great deal of medicine without effect. That at last he despaired of ever getting cured, till he, through recommendation, took Dr. Church's Cough Drops, from which he found very present relief, and by persevering in the use of them, he is now perfectly restored to health, and has had no return or symptom of his disorder since.

WILLIAM M'CLOUGHAN.

Sworn before me this 29th  
day of March, 1799.

Jacob de la Montagnie, Alderman.

Copy of a letter from Captain Henry to Dr. Church.

Dear Sir,

In the year '95 I had the misfortune to break a blood vessel, which was succeeded by a severe complaint on my lungs, cough, shortness of breath, and spitting up of matter and blood, with every other disagreeable symptom of a disorder of the lungs; indeed so afflicting was this disorder, that I could not rest at night, nor could walk 200 yards in the day, without stopping to cough and rest myself a number of times. This disorder continued to increase upon me, till I was much wasted in body, and exceedingly weak. Seeing your advertisements in the public papers, early in the last summer, I commenced taking your justly celebrated cough drops, which I persevered in the use of, for some time; I have now the happiness of informing you, my lungs are perfectly sound; I have no shortness of breath, or spitting up of matter or blood; my cough is a little troublesome in the morning, but no other time.

I am Sir, Yours, ever respectfully,

WILLIAM HENRY.

Garden-street, New-York, April 3, 1799.

*From Dr. Corner of New-York.*

*Dear Sir,*

Conceiving the discovery you have made to be of the greatest magnitude, I mean your Cough Drops, and being conscious I should do wrong both to you and to mankind, if I withheld my public approbation of the medicine from the world, I have submitted it to you—I have from my infancy been very severely afflicted with an asthmatic affection, cough, difficulty of breathing, &c. &c. for which I have in addition to my own knowledge, employed the first Physicians in England, indeed I particularly availed myself of the opportunity, (during my studies at the London hospital) of consulting the Physicians there, (Dr. Denison under whom you was a pupil) Dr. Cook, Messrs. Blizard and Orange, &c. none of whose prescriptions afforded me more than temporary relief. I however was determined to try the efficacy of your medicine, and am happy to inform you I found present and very singular relief from it, and by continuing its use occasionally I doubt not but I shall enjoy good health.

With respect, I am, dear Sir, Yours, &c.

No. 36, Water-Street, New-York. R. CORNER, M. D.

To Dr. Church.

### *ANOTHER STRONG PROOF*

Of the great and unparalleled Efficacy of Dr. Church's Cough Drops in the Cure of

COLDS, COUGHS, ASTHMAS, and CONSUMPTIONS.

*New-York, July 10, 1798.*

To Dr. CHURCH.

*SIR.*

*For upwards of Twelve Years, I have labored under a severe Cough, shortness of breath, spitting of matter from my lungs and often of clotted blood, till at length I was so reduced as to be unable to walk across my room, and owing to the violence of my cough and shortness of breath could get no rest day or night. Hearing of your excellent medicine, the Cough Drops, I procured a bottle: I took a dose as soon as I got it, from which I found instantaneous relief, and by continuing it for three days, I bless God I am restored to perfect health. As I believe you to have been the instrument in the hands of Providence of saving my life, I must intreat you to publish this for the benefit of any who may be in my situation, as I am confident it is one of the best medicines in the world for those complaints.*

*I am Sir, Your grateful servant,*

NICHOLAS STAGG,

*Little Robinson-street.*

*Copy of a Letter from an eminent Surgeon.*  
TO DR. CHURCH.

Sir,

It is with much pleasure I congratulate you on that important discovery, your COUGH DROPS, and request that you will send me a further supply without delay. The favourable reports brought to me the two last winters of their speedy and good effects, in the relief and cure of Coughs and Asthmatic complaints, induced me to employ them in my practice, which I have done with much satisfaction to myself and benefit to others.

If the good opinion I entertain of your medicine can recommend it to public notice, beyond what it has already acquired, you are at liberty to make the same known. Indeed I should hold myself unjust to you and uncharitable to mankind, did I not with great willingness acknowledge that I believe it to be one of the best medicines ever employed in Pulmonary Complaints, I sincerely wish you may derive every emolument the medicine entitle you to.

I am, Sir, your very humble servant,

ROBERT PORTER.

Tottenham-court-Road, Dec. 17, 1796.

*AFFIDAVIT.*

Jacob Macpherson, of Pater-noster-row, Spitalfields, voluntarily maketh oath before me, that he was grievously afflicted with a violent cough, shortness of breath, pain in his breast, loss of appetite, night sweats, and constantly expectorated a very considerable quantity of glutinous matter, could not go to rest on account of the difficulty of breathing, but used to be propped up in his bed by pillows—that he laboured under this afflicting malady for upwards of eight years—his constitution was emaciated to an alarming degree, and his body greatly wasted and fallen away—that after having the advice of many medical gentlemen without receiving any essential relief, he applied to Dr. James Church, Finsbury-Square, and by taking his medicine, called CHURCH'S COUGH DROPS, and attending to his advice, he is now restored to perfect health, nor has he a single symptom of his disorder remaining.

JACOB MACPHERSON.

Sworn before me, at the Mansion-House, London, the 10th day of April, 1797.

BROOK WATSON, Mayor.

*Letter from Baron Montrose, Esq. Devonshire-street, Portland-place, London, addressed to Dr. Church.*

Dear Sir,

As you think the publication of my case may tend to your good, I cheerfully consent to your making use of it, out of re-

spect to you, as well for the benefit of mankind, as I think it cannot be too universally known. In the year 1779, I caught a severe cold, which settled upon my lungs——this brought on a violent cough, pain and tightness across my breast and shortness of breath: I used to expectorate a frothy, though latterly a quantity of glutinous matter, which owing to the violence of the cough, used sometimes to be mixed with blood. I have had the advice of some of the first Physicians in England, whose prescriptions afforded me little more than temporary relief. In consequence of hearing that Col. GLOVER, of Portland-place, had been astonishingly relieved by taking your Cough Drops, I was induced (having before an aversion to advertised remedies) to give your medicine a fair trial, and am happy to make known to the world, that I am restored to perfect health by taking it, after having suffered a martyrdom for upwards of 16 years.

I am, dear Sir, your's, sincerely,

Devonshire-street, May 15, 1796.

B. MONTROSE.

To Dr. Church.

*Copy of an affidavit taken before the Right Hon. Paul Le Mesurier Lord Mayor of London, at the Mansion-House, and Alderman Skinner, at Guildhall, London.*

Philip Williams, No. 4, Tabernacle-row, Moorfields, in the parish of St. Luke, Middlesex, voluntarily maketh oath and saith, that he was grievously afflicted with a most violent cough for upwards of thirty years, which used to prevent him laying down in his bed for whole nights together; and in the day time, owing to the violence of the cough, he was very often unable to attend his business for half a day together.—This deponent further saith, he has applied to many eminent gentlemen of the faculty, and has taken a great deal of medicine which never did him any good, but found, notwithstanding all the medicine and other things that he took, he grew worse. This deponent further maketh oath and saith, that seeing many remarkable cures, similar to his, published by Dr. James Church, of the City Road, said to be effected by his Cough Drops, was induced to investigate into the truth of the same, which he did to his satisfaction: which induced him to make trial of them, which he did; from the first dose he found present relief, and by the said Church's Cough Drops he is now perfectly cured, to the great astonishment of all his friends and neighbours, and is better in health than ever he was in his life.

(Signed)

PHILIP WILLIAMS.

*Sworn before me, at the Mansion-House, London, April 10th, 1794.*

PAUL LE MESURIER, Mayor.

THOMAS SKINNER, Alderman.

The above cases are selected out of a number amounting to upwards of 5000, equally interesting, which may be seen at Dr. Church's Dispensary, New-York.

FOR THE CURE OF

LAXED, OR DEBILITA-	ANXIETIES,
TED CONSTITUTIONS,	TREMORS, AND
LOWNESS OF SPIRITS,	BILIOUS COMPLAINTS,

IS RECOMMENDED

DR. CHURCH'S

## Cordial Restorative Balsam.

**B**ALSAMS, it is universally admitted, are more friendly to the constitution than any other class of the *Materia Medica*.

Many of the most enlightened physicians assert, that "*Balsamic Medicines* are of extensive use in physic, and their virtues superior to those of any other class, being suited to all constitutions and calculated to remove many diseases."

This excellent *Restorative* is prepared at a considerable expence, from the choicest, richest, and most valuable Balsams in the world, joined with a collection of the most useful corroborants, all happily suited for restoring the most emaciated and debilitated constitutions; its incomparable virtues have been experienced by thousands in Europe, the West Indies and America, in the Cure of Nervous Disorders, Loss of Appetite, Female Complaints, Inward Weaknesses, Indigestion, decayed, weak, relaxed or debilitated Constitutions, Pains in the Limbs, Lowness of Spirits, Seminal Weaknesses, Poverty of Blood, Sinkings, Anxieties and Tremors, which so dreadfully affect the weak, the sedentary, and the delicate, Bilious Disorders, every symptom of extreme debility attendant on the indiscretions of youth, the consequences of a dissipated life, excess of pleasure or grief, change of climate, the immoderate use of tea, hard drinking, or any intemperance; diseases incident to young women, *i. e.* Irregularities, the *Flor Albus* or *Whites*, Pains in the Head with a sense of weight across the eyes, Giddiness, Pains in the stomach, &c.

It is particularly adapted to women in a weak state, either in consequence of an immoderate flux of the customary evacuations, bad lyings-in, or any other cause; it is of infinite service to women at a certain period of life.

## THE CORDIAL RESTORATIVE BALSAM

Is recommended as a Medicine of specific and unparalleled virtues for the immediate relief and speedy and permanent cure

of the above disorders, having stood a trial of many successful years, during which period many thousands of both sexes have been restored from the brink of the grave.

This Balsam is particularly adapted to weak Female Constitutions, as well as to the phlegmatic habits in general; it acts powerfully as a nervine, not only to the weak stomach, but to the whole nervous system; corrects a vitiated appetite and digestion in the first passages, and assists wonderfully in recovering the tone of the urinary and genital organs.—Hence its efficacy in the obstinate seminal gleets in men, and corresponding weaknesses in women; and hence it will contribute more safely, surely and honourably towards conjugal happiness, than any of those irritating, diabolical compositions, which are so shamefully administered to the unwary.

It is earnestly recommended to those ladies, who from repeated and difficult labours, are afflicted with weaknesses and infirmities; in which cases it is highly useful, strengthening at the same time the stomach, the back, the weakened organs, and the *whole constitution*.

Those who in advanced life, feel the consequences of youthful excess, or unfortunate youth, who have brought on themselves a numerous train of evils, will by the use of this, find themselves restored to health and strength, and all the melancholy symptoms removed, which are the general effects of such causes.

For whether the system has received a shock, and is debilitated from imprudencies or inattention in the earliest part of life, or is sinking under the advance of youth, a few doses of this Medicine will afford immediate assurance of returning health and strength, by giving tone to the muscular system, and organs of digestion, and by renovating the whole constitution.

To the *young* it will afford lasting *health, strength and spirits*, in place of lassitude and debility: and to the *aged and infirm*, it will assuredly furnish *great relief and comfort*, by gently and safely invigorating the system: it will not give immortality; but if it be in the power of Medicine to guild the autumn of declining years, and calmly and serenely protract the close of life beyond its narrow span, this Restorative is capable of effecting that grand desideratum.

Constitutions relaxed, weak or decayed, in men or women, are under the immediate influence of this Restorative.

Old coughs, soon relieved, and speedily cured. Poverty of blood and emaciated limbs, will ere long meet the happiest change; the chill watery fluid become rich and balsamic, and the limbs be covered with flesh, firm and healthful.

It will no doubt be acceptable to the reader, to see accounts of some of the remarkable cases and cures which have been performed by this truly invaluable medicine, in the disorders for

which it was invented; he has therefore selected a few of such cases as have come within his own immediate knowledge, which are published and may be had (gratis) at any of the places where the Medicine is sold.

*The following Letter was written to Dr Church a short time ago; it affords an additional proof of the extraordinary good effects of this Medicine.*

Sir,

The inclosed is an exact statement of my wife's disorders when I first applied to you, and took your Medicines. I have sent it for the satisfaction of those who wish to see it in her own hand-writing, as delicacy forbids her inserting her name &c. in full length.

#### THE CASE.

I have laboured under a severe Nervous Disorder for upwards of *Thirteen Years*, attended with extreme weakness, pain in my limbs, swimming and pain in my head, a violent oppression at my stomach, particularly after eating, no appetite, but a loathing of food, wind at my stomach; and what effected me most was, an almost continual weakness upon me, which affected me extremely, and reduced me to a mere skeleton. I had tried several eminent doctors without receiving any benefit, till I took your Medicine, the *Restorative Balsam*; from the first Bottle I found great relief, and by persevering in its use only six weeks, I bless God, I am as well as ever I was in my life, being perfectly free from any of the above complaints.

London, Dec. 29, 1796, No. 23, Tottenham-street.

H. HANKIN.

Mrs. C——, aged 48 years, laboured under the most severe affliction for several years, it being a very critical period with her. Her body at times was very much swelled, her head greatly disordered; confused thoughts, pains at the pit of the stomach, frequent vomiting of bile, nervous trembling, pain and weakness in her back and loins, very little desire to eat, but very thirsty, frequent languor and faintings, great oppression at the stomach, severe cough and shortness of breath and wind. After taking a great deal of Medicines for many years, prescribed for her by Physicians of eminence to very little purpose, she made application to Dr. Church, City Road, who recommended his *Cordial Restorative Balsam*, &c. to her, who, after taking it perseveringly for about two months, received a perfect cure, and now enjoys a good state of health.

Mrs. A——, owing to very severe treatment in her lying-in, laboured under a very bad weakness for several years, and was from that period unable to hold her water, and was other-

wise much afflicted: she took the *Restorative Balsam* and *Decotion of Bark*, by the recommendation of Dr. Church, and by which she was soon effectually cured and now enjoys a good state of health.

---

*The following Letter, addressed to Dr. Church, signed by the person, may be seen by any one who will take the trouble to call on the proprietor:*

“ Dear Sir,

“ No symptom whatever of my disorder has been withheld from you, while I was under your care; yet I think it necessary to speak particularly, in case you should think proper to publish this Letter, for I should think myself unjust to you, and to my fellow creatures, was I not to acknowledge publicly the great benefit I have received from your excellent Medicine, the *RESTORATIVE BALSAM*, &c. I suffered the most extreme debility for seven years, that I think any human being could to exist. I was 16 years of age when I was first attacked with violent pains about my stomach, back, loins, knees, calves of my legs, and my head. The pain in my head used to seize me so that it was with difficulty I could either stand or keep my seat: a violent trembling used at times to affect me, as if I had an ague. No appetite, but I loathed the sight of food, a very bad cough, and spitting up of matter, sickness in a morning, frequent faintings, and a great discharge from my *penis*. I seldom got any sleep that did me any good; for when I had any at all, I was so terrified with frightful dreams and startings, that it did not seem to refresh me at all. In short, so great was my affliction, and so greatly was I reduced and wasted away, that I looked more like a ghost than a living body. After many fruitless applications to Gentlemen of the Faculty, both in town and country, where I have occasionally been sent for the benefit of the air, with no other than temporary relief: I made application to you, through the recommendation of a gentleman who is a draftsman in the Tower, and am happy to declare to the world, that I am now, and have been these two years, in a perfect state of health, through taking that incomparable Medicine, your *Restorative Balsam*, and accompanying Medicines, which you by your great skill, advised me to take occasionally. Wishing you every benefit so excellent a Medicine entitles you to, I remain,

Dear Sir, your obedient servant,

Feb. 9, 1797.

J. S. DOUCH.

Messrs. SMITH and Co. Tower-hill.

---

Miss M. A——, aged 17 years, was committed to Dr. Church's care, after having laboured under the most severe afflictions, ever since she was 14 years old, and after taking an immense

quantity of medicines from several gentlemen eminent in the practice of physic to no effect.

Her chief complaint were, nausea or sickness, no appetite, a very great weakness upon her, very irregular, frequent pains about the lower part of her body, head, loins, &c. &c. lowness of spirits, a dislike to any exercise, her legs used frequently to swell towards night, owing to the great debility which she suffered, her complexion was very yellow and sickly. In short, her constitution was so debilitated, that her life was despaired of.

By the advice of Dr. Church, she took the RESTORATIVE BALSAM, &c. and found present and very singular relief, and by continuing to take it for a short time is effectually cured, and is now quite free from any of the above disorders, and is in good health and spirits.

*To the Nervous, Weak, Debilitated, Sedentary and Consumptive,*

IS RECOMMENDED

**The celebrated Botanical TEA,**  
Instead of FOREIGN TEA.

**T**HIS Tea is universally approved of, in preference to Foreign Tea, as the most pleasant, wholesome, enlivening, invigorating and powerful Restorative ever adopted, for persons of all ages; but particularly those of the above description, as it will infallibly strengthen, and eventually repair a bad constitution.

It is taken for breakfast, instead of Foreign Tea: and as our first aliment in the morning is designed to recruit the waste of the body from the night's insensible perspiration, it is well known and an important fact which ought to be borne on the mind of every one, that, Foreign Teas are inadequate to such a purpose, as all will allow: it unnerves and wears the substance of the solids. This substitute is professionally approved as a salutary and nourishing diet, or as a morning and afternoon beverage.

#### THE BOTANICAL TEA,

is singularly efficacious in all cases of inward weakness, trembling or shaking of the hands, loss of appetite, (particularly in the morning) depression of spirits, windy complaints. It speedily relieves the head and stomach in Gouty or Rheumatic cases, and in cases of weak Digestion, but particularly after making too free with the constitution, by an immoderate use of wine, spirituous liquors, or any intemperance; it is happily suited to hot climates, and is adopted and approved by some of the first families in the United States and in the West Indies, for its nou-

ishing and invigorating properties, and in bilious cases, where the appetite has failed, it is a sovereign remedy.

As proofs of the evil tendency from the Use of Foreign Teas is subjoined the opinions of some of the first Physicians in Europe.

### ON FOREIGN TEA.

“ The cause of the Palsy is drinking too much Tea—many imagine Tea has no ill effect on the nerves; this, however, is a mistake—it effects the nerves, which is evident from its causing the hands to shake, preventing sleep, occasioning giddiness, dimness of sight, Sickness, &c.”——*Dr. Buchan.*

“ Strong infusions of India Tea, not only unnerves, but destroys the bodily functions.”——*Dr. Hugh Smith.*

And in another publication, Dr. Hugh Smith says, “ Tea is hurtful to both the stomach and nerves, it causes phrenzies, delirium, apoplexies, and other disorders of the brain, which are produced by the nerves being thus disarranged and debilitated, the digestive faculty of the stomach is weakened, and the body failing of the recruiting juices, must tend to emaciation, and the whole frame thus rendered one system of distress and infirmity.”

The justly celebrated Dr. Tissot says, “ This fashionable beverage, India Tea, is extremely pernicious, it destroys the strength of the stomach, the viscera, the blood, the nerves, and eventually the whole body.”

Dr. Moliere says, “ In bilious complaints, Tea is extremely hurtful.”

Dr. Fothergill, “ Tea is very offensive to the lungs, and impedes respiration; it is therefore highly improper for persons who have a difficulty of breathing, or any complaint of the lungs or nerves.”

Dr. Saunders says, (see his Med. Mem.) “ India Tea renders men impotent and women barren; hence we may account for persons in the highest circles, having few children, and those in general very sickly and unhealthy.”

For more accounts of this Tea, see the second edition of this pamphlet.

This Botanical Tea is calculated to produce the contrary effects, is the result of long and indefatigable study and experience, and by perseveringly adopting its use, will be found to answer every effect herein mentioned.

It is cheaper than India Tea, one packet at 75 cents, will last one person for breakfast nearly one month; cannisters containing eight packets, 5 dollars.

It is prepared only by Dr. Church, and may be had of the venders of his medicines in the United States and the West-Indies.

Mrs. Ross, wife of Mr. Ross, of Dutchess County, was for many years subject to a severe nervous complaint, trembling of her hands, giddiness, pain in her stomach, loss of appetite, weakness of digestion, and much inclined to consumption: she made application to Dr. Church in New-York, who (Mrs. Ross being much averse to medicine) recommended his BOTANICAL TEA, with strict instructions for her not to drink any India Tea, Mrs. Ross being in the habit of drinking strong green Tea and eating nothing with it, she adopted the use of Dr. Church's Tea twice a-day in its place, and is now perfectly restored to health and strength by taking that alone; she now uses it in common in her family, who universally speak of it in the strongest terms of approbation.

---

## WORMS.

---

The Genuine Vermifuge Lozenges,  
*For destroying Worms in Children and Grown Persons.*

Invented and prepared by Dr. James Church, New-York.

THE general symptoms of Worms, are a Nausea with Sickness at the Stomach, foetied Breath, itching of the Nose, starting and grinding their Teeth while a-sleep, paleness of the Countenance, the Appetite sometimes bad, and at other times quite voracious, Looseness, a hard swelled Belly, intermitting Fevers, frequently very Thirsty, the Urine sometimes frothy and often of a whitish colour, griping or choleric Pains, a dry Cough, unequal Pulse, Drowsiness, Fits and Convulsions.

The necessity of a remedy is obvious, as they are frequently productive of the most fatal consequences. These *Vermifuge Lozenges* are an excellent Alterative, contains nothing but what is perfectly innocent, may be administered to children of all ages, and to grown persons with the greatest safety, and, as a worm Medicine, are an infallible and certain cure. They operate by stool and are singularly efficacious for gross humours and eruptions, sore heads, fever, billious complaints, &c. an excellent physic after the small-pox, meazles, fevers, &c. and as a gentle purgative in the spring and fall of the year.

---

*Copy of a Letter to Dr. Church.*

Dear Sir,

New-York, Feb. 1, 1800.

My daughter, who is about 4 years of age, had for a considerable time been much reduced, and very sickly, and it was the general opinion of my friends as well as myself, that she was in a decline; she

at length, however, discovered the common symptoms of Worms. I had recourse to your Vermifuge Lozenges, which were administered directly, and which occasioned her to void an immense number of very small worms—we repeated the use of the Lozenges, and in a few days, I am happy to inform you, she was entirely cured, and resumed her wonted cheerfulness and gaiety.—Having experienced the efficacy of your medicines before, I take the liberty of troubling you with this case, and am, Sir,

Your obedient humble servant,

No. 198, Broad-way.

R. WAITE.

*The only Medicine in the World, that cures the most inveterate ITCH in Four Hours.*

**The genuine Patent Scotch Ointment,**  
For pleasantness, safety, expedition, ease and certainty, is infinitely superior to any other medicine for the cure of the  
**I T C H.**

**I**T is so certain in its operation, that it has never failed, in any one instance whatever, of effectually curing that disagreeable Disorder in one Night, by one application only, though applied to many Thousands in England, Scotland and Ireland. It does not contain the least particle of Mercury, (*see the Affidavit,*) but may be applied with the greatest safety, to the most delicate Lady during Pregnancy, or the tenderest Infants.

It is necessary that every Person in a Family, House, or School, having caught the Infection, should have a Box of the Ointment, and each be dressed with it the same Night, as the person cured will be subject to take the infection again immediately.

ONE BOX is a cure for a grown person—and divided, Cures two Children.

*The proprietor is so certain of its infallibility, that he engages to return the money to any person on whom it did not perform a cure in four hours.*

#### AFFIDAVIT.

JAMES CHURCH, late resident at the Dispensary, City Road, near Finsbury Square,\* Surgeon and Man-Midwife, maketh Oath before me, that the Medicine invented and prepared by him, called the “SCOTCH OINTMENT, for the Cure of the ITCH in FOUR HOURS,” does not contain the least particle of Mercury, or any other pernicious ingredient whatever, but is perfectly safe for use on the most delicate person.

JAMES CHURCH.

\* Now of New-York.

*Sworn at the Mansion House, London, this 10th  
day of April, 1797, before me, BROOK WATSON, Mayor.*

It is sold Wholesale, Retail, and for Exportation, at Dr. CHURCH's Dispensary, New-York, and by the general Venders of Dr. Church's Medicines, in most Towns in America.

Price Seventy-Five Cents the Box.

## FOR THE CURE OF CORNS.

### Infalible German Corn Plaister.

**T**HIS Plaister (the invention of a German Physician, who administered it in Germany upwards of 30 years with the greatest success) is infalible for the cure of Corns. It will effectually eradicate them, root and branch, in a short time.

Prepared and sold by Dr. Church, at his Dispensary, New-York.—Price 50 cents.

## HEAD-ACHE.

**P**ERSONS afflicted with the Head-Ache, proceeding from whatever cause, will find instant relief in the application of Dr. Church's ANODYNE ESSENCE: in Rheumatic, Nervous and Billious Head-Aches, it has not its equal. It not only alleviates that tormenting Pain, but removes it almost instantaneously. The Head-Ache, occasioned by hard Drinking, and any local pain in any other part of the body or extremities, are by its application effectually removed.

### CASES OF CURE.

TO DR. CHURCH.

Dear Sir,

*I have been subject to a very severe Head-Ache, for several years, which sometimes used to afflict me to such a violent degree, as to disable me from attending my duty as draftsman of the Tower for several days together. I have had the advice of several eminent Physicians in this city and in Wales, and have tried many other Remedies, recommended to me, without effect. Being one day extremely*

*indisposed with the HEAD-ACHE, as usual, I sent for you, when you recommended your ANODYNE ESSENCE to me, which I applied, and which removed the pain as soon as I applied it. I frequently repeated the use of it, and am happy to inform you, I have had no return of it.*

*I am, dear Sir,*

*Your obedient Servant,*

JOHN BARNES.

Drawing-Room, Tower of London, May 9, 1795.

Another gentleman in his Majesty's service, in the Tower of London, had been extremely afflicted with the Head-Ache for some years, and sometimes to so violent a degree, as to prevent him from attending the duties of his office; at one of which times, he sent for some of Dr. CHURCH'S ANODYNE ESSENCE, which he applied, and which removed the pain instantaneously; and he is happy in affirming, that he has had no return of the pain since.

The above gentleman, whose name and address may be known at the place of sale, will testify the above to any candid enquirer.

CHURCH'S ANODYNE ESSENCE, is prepared and sold (only) by the inventor and sole Proprietor, Dr. JAMES CHURCH, at his Dispensary, New-York. Price 50 cents.

---

## FOR THE CURE OF FITS.

### The Patent Antispasmodic Elixir.

*Convulsion, Epileptic, Hysteric, or Falling Fits,*

**A**RE effectually cured by this Medicine. Its virtues are absolutely specific and unparalleled. It has failed in no instance within the knowledge of the proprietor (when taken agreeable to the directions, and perseverance) the most dreadful Fits ever known. One case of cure only is subjoined out of a considerable number, as proof of its efficacy, attested before the Lord Mayor of London.

#### AFFIDAVIT.

“ I James Pocock, of No. 40, North-Street, in the parish of St. Luke's, Middlesex, do make oath, that I was grievously with fits for upwards of 14 years, and that in so violent a degree, as to require twelve men to hold me in them, to prevent me from dashing myself to pieces. They would generally last me five, six, and often seven hours: In consequence of which my constitution became quite emaciated. I made application to several eminent gentlemen of the faculty, who afforded me no relief whatever:

till I applied to Dr. James Church, of the City Road, who prescribed his Antispasmodic Elixir for me, which I took, and which alone cured me of the most dreadful fits, and restored me to perfect health. This deponent further maketh oath, and saith, that it is now two years since he was first cured of his fits, and he has had no return whatever of them since.

JAMES POCOCK.

*Sworn before me at the Mansion-House, this 29th day of Aug. 1796.*

WILLIAM CURTIS, Mayor.

Roger Sharp, of Catharine-Wheel-alley, Bishopsgate-street, was dreadfully afflicted with most severe Convulsive Cramp Fits, for upwards of Fifteen Years, to such a violent degree, as to occasion a general distortion of his limbs, his Fits encreasing to three, four, and five in a day, which rendered him incapable for a long time of doing any thing to support himself; was a long time an out-patient in Guy's Hospital, and discharged as incurable; he also took every medicine that various professional gentlemen prescribed for him, to no purpose; he applied to Dr. Church early in the month of February last, who put him immediately under a course of his *Antispasmodic Elixir*; and, from the first bottle, he found very great relief, and *has not had a single Fit since taking the first dose of Medicine*; and is better in health and spirits than ever he was.

(Signed)

ROGER SHARP.

TO DR. CHURCH.

*Dear Sir,*

Agreeable to your request, I send you the Case of my Sister, who for a long time was dreadfully afflicted with the most severe Fits that could afflict human nature, which came at first through a fright: these Fits encreased upon her to a very great degree. She used often to have four, and sometimes eight or nine in a day, particularly at the change and full of the Moon, which at length rendered it improper for her to be left alone. As they grew more and more violent, she was under the care of Dr. S——, whose Medicines did not afford her the least relief whatever. She was also placed under the care of several other Professional Gentlemen, who could render her no essential aid whatever. Hearing of your great skill in curing all kinds of Fits, she made application to you for advice; and I am happy to testify thus publicly, that she was effectually cured by your *Pateut Antispasmodic Elixir*, in two months: nor has she had any return of her Fits since, although now two years ago. Any further enquiries

that may be made concerning this great cure, I shall be happy to answer at any time.

I am, dear Sir,

Your obedient humble servant,

ANN HUGHES.

Great Trinity-Lane, Jan. 19, 1797.

Mrs. Nightengale was afflicted with the most violent Convulsion Fits, from her infancy, for her mother bred her with them. She was never a single day without them, from the day of her nativity up to the age of twenty-five years, when she applied to Dr. Church, through the recommendation of Mr. Langdale, Grocer, corner of Leonard street, Tabernacle-walk, Finsbury square, who was well convinced Dr. Church could cure her, if it was in the power of medicine to effect it. Mrs. N. took the *Patent Antispasmodic Elixir*; and from the first dose, found great relief, and by persevering in its use for a few weeks, was perfectly and effectually cured, and has had no return of her *Fits*, although it is now Four Years ago.

March 2, 1797.

Mrs. Wolcot, of Manchester, in a letter to Dr. Church, dated December 3, 1796, informs him, that she has witnessed the cures of two young Ladies (sisters,) in the neighbourhood of Manchester, who were dreadfully afflicted with *Hysteric Fits* for Five Years, and were effectually cured by taking the *Patent Antispasmodic Elixir* for two months, they neither of them had a Fit since taking the first dose of the Elixir, at *certain periods* when they expected to have their Fits, they fainted away once only; but were not insensible two minutes. They are now in perfect health, and have had no return whatever of them since.

---

### *For all Diseases of the EYES.*

### Dr. Church's Celebrated Eye-Salve,

UNIVERSALLY acknowledged as a certain and infallible cure for INFLAMMATIONS, DIMNESS, DRYNESS, BRUISES, ITCHINGS, and FILMS in the Eyes, proceeding from Natural Weakness or from Accidents, such as blows, dust, lime, or any thing else being thrown into the Eyes. It is admirable in natural Weakness of Sight, in Defluxions of Rheum, for all ailments in the Eyes after the Small-Pox, Measles, and Fevers: it is singularly efficacious in carrying off all watery and gross humours; and in strengthening the Sight. In short, there is no Disease to which the Eyes are subject, but this SALVE is

A SOVEREIGN REMEDY.—Many hundreds have experienced its Efficacy when in the greatest danger of losing their sight.

As proofs of its singular Efficacy, the following remarkable and well attested Cases, are selected from a considerable number.

### CASE I.

*SUSANNAH GEARING, of New-Court, Cow-Cross, Smithfield, voluntarily maketh oath and saith, that sometime ago she was nearly blind, having a SPECK on one Eye, which entirely covered her sight, and consequently deprived her of the least light; her other eye was covered with a SKIN OR FILM, so as to render her sight extremely dim. She used many applications recommended for DISEASES of the EYES, which afforded her no relief, until she had recourse to Dr. CHURCH'S EYE-SALVE, which entirely cured her. It effectually removed the SPECK in a few days, and the other eye gradually grew better, and now her sight is perfect, and has not the least ailment in either of them.*

SUSANNAH GEARING.

Sworn before me at the Mansion-House, London, Oct. 18, 1794.

PAUL LE MESURIER, Mayor.

### CASE II.

Sir,

*Being entirely recovered from impending blindness. I beg leave to trouble you with my case, which for the good of others in a like situation, I desire you will make known.—I was suddenly seized with a most violent inflammation in both my eyes, attended with a discharge of fetid matter, which continued encreasing upon me until my eyes were quite closed, which deprived me of the possibility of seeing at all; nor could I (when with much pain and difficulty they were got open) bear the light: if I attempted to look at the fire, it occasioned a most dreadfully painful sensation, as if a thousand needles were piercing my eyes at the same time. Nothing that I applied ever did me the least good, and I despaired of again recovering my sight until I was prevailed on to make use of your justly celebrated Eye-Salve, which I am happy to say has wrought such a wonderful cure on me in about fifteen days, that my sight is now perfect, and never was better in my life. I will satisfy any inquirer who will call on me, and am,*

Sir, your's, &c.

ELIZABETH LUCAS.

Every sentence of this is strictly true, as witness my hand,

Bunhill-Row, Sept. 1794.

RICHARD LUCAS.

## C A S E III.

TO DR. CHURCH, Finsbury-Square.

Sir,

I have been afflicted with a violent humour in my Eyes, attended with inflammation and itching, for upwards of ten years, which has lately increased upon me to a very alarming degree: as my sight suffered very materially thereby, being excessively weak, I have used a great many different remedies, recommended to me as specifics, without success; but am happy to add, that one box of your EYE-SALVE has effectually cured me, and strengthened my sight amazingly.

I am, Sir, your humble servant,

ANN CALVERY.

Milford Place, Tottenham-Court-Road, Dec. 4, 1794.

P. S. As I am now Seventy Three years of age, and many persons well know how much I suffered for so many years, I must beg you to publish it for the good of others.

*Are effectually and speedily cured by the GENUINE*

DR. CHURCH'S

## VEGETABLE LOTION.

**T**HIS LOTION is excelled by no other in the world. It has been administered by the proprietor for several years in Europe and America with the greatest success. By the simple application of this fluid, night and morning, it will remove the most rancorous and alarming Scurvy in the Face. It is perfectly safe, yet powerful, and possesses all the good qualities of the most celebrated cosmetics, without any of their doubtful effects. It is therefore recommended as a certain and efficacious remedy, and a valuable and almost indispensable appendage to the toilet, infinitely superior to the common trash—*Cream drawn from Violets and Milk from Roses!!!* Suffice it however to say, it has been administered to MANY THOUSANDS in the United States and West Indies with the greatest and most unparalleled success,

AND WITHOUT EVEN A SINGLE COMPLAINT OF ITS INEFFICACY.

A small bottle at 75 cents will be found sufficient to prove its value.—Only one case is added for want of room, selected from a considerable number in possession of the proprietor.

Mr. F. R. in the neighbourhood of German-Town, near Philadelphia, whose name and address may be known by application to Dr. Church, was dreadfully afflicted with a scorbutic humour in his face and other parts of his body, but more particularly about his face and neck, so much so that it was with the most excruciating pain he could shave or wash his face; his nose and eye-lids extremely red and excoriated, that he was ashamed to appear in the public streets; he employed the first surgeons and physicians he could hear of to no effect; he however adopted the use of Dr. Church's Vegetable Lotion, which perfectly and radically cured him.

The above gentleman has also witnessed the efficacy of the Lotion in his family, in the speedy removal of Tan, Freckles, Sun-burns and the Prickly Heat.

*Price—Half Pints, 75 cents—Pints, one dollar and 25 cents.*

---

FOR THE  
Teeth, Breath, and Scurvy in the Gums,  
*And the TOOTH-ACHE.*

THE ANTISCORBUTIC TINCTURE is unequalled, for CLEANSING, WHITENING and PRESERVING the TEETH, and effectually curing the Scurvy in the Gums. It will prevent the Teeth from further decay, fasten them if loose, and render the breath perfectly sweet.—Price 1 dollar each bottle.

---

TOOTH-ACHE.

*Volatile Tincture for the Tooth-Ache.*

THE most efficacious remedy ever discovered for that tormenting pain. It gives immediate and permanent relief in the most violent cases: contains nothing but what is perfectly innocent, and may with safety be applied to pregnant women or to children.—Price 37½ Cents.

The Volatile Tincture is prepared (only) and sold by Dr. James Church, at his Dispensary in New-York, and by the general venders of his Medicines in the United States.

FOR THE CURE OF  
**Malignant and Bilious Fevers,**  
 DYSPEPSY | CHOLERA MORBUS  
 JAUNDICE | GRAVEL  
 COSTIVENESS | INDIGESTION  
 ACIDITY | LOSS OF APPETITE

AND ALL DISORDERS OF THE  
 Head, Stomach and Bowels,

IS RECOMMENDED THE  
**ANTI-BILIOUS PILLS,**

Prepared (only) by DR. JAMES CHURCH, at his Dispensary, 137 Front-Street, near the Fly-Market, New-York.

These Pills are singularly efficacious in speedily removing all Bilious Complaints, Cholera Morbus, &c. &c. and have from extensive use, been found to equal, if not exceed any other medicine for the cure of the above complaints. They are the result of long and indefatigable study, and are recommended by the proprietor with confidence as a Specific, and will be found to resist

**PUTREFACTION.**

Their operation is mild, and require no confinement; they create an appetite, amend a weak digestion, and restore to the stomach its wonted tone and vigor. They are also excellent in the Jaundice and Gravel, and are particularly useful to those who have addicted themselves to hard drinking.

Price 50 cents each box.

FOR THE  
*Voice, Hoarsenesses, Colds, Coughs, &c.*  
**THE PATIROSA LOZENGES.**

**P**ARTICULARLY recommended to those who sing or speak much, for clearing the Voice, removing Hoarsenesses, Colds, Coughs, &c. and rendering the breath truly odoriferous. They are delightfully pleasant, and an efficacious preparation from the ROSE.

Sold at Half a dollar each box, with printed directions for their use, at the Intelligence Office, No. 81, William-street; No. 112, William-street; No. 210, Broad-Way, corner of Fair-street; No. 21, Maiden-lane, and at No. 137, Front-street, near the Fly-market, New-York.

*The following Note was received by Dr. Church from a young lady of the first respectability, whose name Dr. Church has not the liberty of publishing.*

Miss ——— compliments to Dr. Church, begs he will let the bearer have half a dozen more boxes of his Patirosa Lozenges, as she finds infinite relief from them in cases of slight cold, but particularly when she has occasion to sing or speak much. Miss ——— has dispensed with a great part of her last half dozen boxes among her friends, who are very partial to them, and speak highly of their efficacy.

*Monday Noon, Feb. 17, 1800.*

*The following Patent Medicines may also be had at Dr. Church's Dispensary, 137 Front Street, near the Fly Market, New York, viz.*

British Oil.  
Ague Tincture & Pills.  
Paregoric Lozenges.  
Hooper's Pills.

---

BY JAMES CHURCH, M. D

Formerly Pupil to Dr. Dennison, London Hospital.

---

“ The first of human Gifts is HEALTH !”

PLATO.

“ O blessed health ; Thou art above all gold or treasure ; 'tis  
“ thou who enlargest the soul, and openest all its powers to  
“ receive instruction, and to relish virtue ;—he that has thee,  
“ has little more to wish for ; and he that is so wretched as to  
“ want thee, wants every thing with thee.”

STERNE.

Church, James, *Important information to the afflicted...*  
WZ 270 C559i 1800

**Condition when received:** The leather-bound tight back had been rebound at some time in the past. Pages 11, 12, 13 and 14 were detached at the gutter and appeared to have been omitted during rebinding.

**Conservation treatment:** The pages were guarded along the gutter edge using usumino (Japanese Paper Place) and wheat starch paste (zin shofu, BookMakers).

They were positioned and secured using same.
